“ We were friends through Facebook and a joint love for dogs with special needs. Gail was not only a friend to these precious animals, she was also the difference between a loved second chance at life, or death. She made such a difference -- a wonderful difference! -- in the lives of so many dogs and people; I am blessed to have known her through Facebook. I pray that her dear husband is comforted by the knowledge that his beloved wife always gave her best, and loved him beyond all measure.
