“ Jack is my middle brother. The memory that always stands out to me has been this:I was born 7 years after my brother....exactly! Yup, I was born on Jack's birthday! My dear sweet brother always told me that when I was born, our Mom put me in a box, wrapped me up, put a bow on it and gave me to him for his birthday!! He had me actully believing that for a very long time....years!! Then, when I was finally old enough to realize that our Mom would not have done that....I confronted him. He said, "Now Sis....would I ever tell you something like that??!" I will dearly miss my wonderful brother and I will also have the comfort of such good memories as this one. May you rest in peace Dear Brother. I will always love you.Donna
