“ I was so sad to see of Mike's passing. I had known him since we were kids in Vallejo. Hadn't talked to him in about 30 years, but it was still a shock. He was so young still. I'm glad he had someone close to him at the end. Prays to his Mom and family.

“ Micheal, I want to let you know how much I miss you. You always said to me " God brought us together". And I believe that with all my heart. You taught me so and showed me so much love. We only had a short time together but I will always be content and gratefull to have you as my friend. I love you Mike and hope someday in heaven we can be together again. Thank you for everything. Love. Always, Shadow
