“ Dear Dad, Hope you are resting in peace. Too bad there was no contact from you in the last few years. However, you were in my mind and I wished you the best. All the history and moments were things only things we could touch on and remember. Good, bad many difficulties, but through that came great strength and a certain wisdom that is hard to articulate. You did your best, and I will remember that for sure. I wish I could have said good-bye, so thought I would say it here. love, toni
